EXPERIENCE

Frontend Developer Intern – [The Entrepreneurship Network]

march 2025 – april 2025 (1 month)

- Worked on frontend features using React.js and Tailwind CSS
- Contributed to responsive layout fixes and interactive UI components

PROJECTS

Summryfy

- A Java-based web application developed using JSP and Servlets
- Enables users to generate summaries of textual content through REST API integration. The application efficiently handles HTTP requests, processes API responses, and dynamically renders summarized output using JSP.
- The UI is built with HTML and CSS, ensuring responsiveness and usability.
- **Live:** <https://datadeploy-production-12af.up.railway.app/>

Personal Portfolio

- React.js, Tailwind CSS, Vite, Framer Motion
- Created an animated and responsive personal website showcasing projects and skills
- **Live:** <https://myportfolio-two-hazel.vercel.app>

CERTIFICATIONS

- Placement Training Workshop – UIIT, 2024 (1 week)
- Joining Letter from *The Entrepreneurship Network* as recognition for internship opportunity

EDUCATION

B.Tech – Computer Science Engineering

UIIT, Himachal Pradesh University

CGPA (Till Previous Semester): [8.53]
